

K-LOVE provides the youth of our community with positive messages that inspire service, productivity, and a healthy self-image. We need this station on our airwaves, as no other programming provides this, 24 hours a day, 7 days a week. My 4 children have benefited immensely from listening to K-LOVE, and so have countless others. We need to invest in our children and give them positive, loving, truthful messages; they are bombarded daily with the opposite. Please, please keep K-LOVE on the air.
